## IGCSE Mathematics Module 4

Number (2)
By the end of this unit we will have covered the following areas.

| Objective |  | 0 0 0 U U |  |  |
| :---: | :---: | :---: | :---: | :---: |
| Use a scientific calculator efficiently and apply appropriate checks of accuracy | 12 |  | $\begin{aligned} & \hline 33-35, \\ & 364-5 \end{aligned}$ |  |
| Use current units of mass, length, area, volume and capacity and convert between units | 13 |  | MM |  |
| Calculate times in terms of 24-hour and 12-hour clock; read clocks, dials and timetables | 14 |  | MM |  |
| Divide a quantity into a ratio | 10 |  | 15-16 |  |
| Increase and decrease a quantity by a ratio | 10 |  | 15-16 |  |
| Understand and use ideas and notation of ratio, direct and inverse proportion and measures of rate | 10 |  | 15-18 |  |
| Calculate using money and convert between currencies | 15 |  | 18-19 |  |
| Use scales in practical situations | 10 |  | 19-21 |  |
| Calculate a percentage of a quantity | 11 |  | 21-24 |  |
| Express one quantity as a percentage of another | 11 |  | 21-24 |  |
| Carry out calculations involving reverse percentages | 11 |  | 22-25 |  |
| Calculate percentage increase and decrease | 11 |  | 24-26 |  |
| Calculate simple and compound interest | 11 |  | 26-27 |  |
| Use data to solve problems on personal and household finance involving earnings, discount, profit and loss. | 44 |  | 26-27 |  |
| Calculate average speed | 10 |  | 28-30 |  |
| Express direct and inverse variation in algebraic terms and use this to find unknown quantities | 10 |  | $\begin{aligned} & \hline 162- \\ & 167 \end{aligned}$ |  |

## Vocabulary:
