## IGCSE Mathematics Module 10

## Vectors and matrices

By the end of this unit we will have covered the following areas.

| Objective |  | ? |  |  |
| :---: | :---: | :---: | :---: | :---: |
| VECTORS |  |  |  |  |
| Describe a translation by using a vector and either $\overrightarrow{A B}$ or a notation | 35 |  |  |  |
| Add and subtract vectors and multiply them by a scalar | 35 |  | 250-255 |  |
| Use the sum and difference of two vectors to express given vectors in terms of two other vectors | 35 |  | 255-259 |  |
| Calculate the magnitude of a vector and understand the modulus notation (e.g. ${ }^{\|\overrightarrow{A B}\|} \mid$ ) | 35 |  | 260-261 |  |
| Use position vectors | 35 |  | 261-264 |  |
| MATRICES |  |  |  |  |
| Display information in the form of a matrix | 36 |  |  |  |
| Calculate the sum, difference and product of 2 matrices | 36 |  | 274-276 |  |
| Know the zero and identity matrices | 36 |  | 277 |  |
| Calculate the determinant and inverse $\mathrm{A}^{-1}$ of a $2 \times 2$ matrix | 36 |  | 277-278 |  |
| TRANSFORMATIONS |  |  |  |  |
| Reflect simple figures in horizontal and vertical lines | 37 |  | 279-281 |  |
| Rotate simple figures about a point through multiples of $90^{\circ}$ | 37 |  | 281-284 |  |
| Construct translations and enlargements of simple figures | 37 |  | 284-288 |  |
| Construct shears and stretches of simple figures | 37 |  | 298-299 |  |
| Recognise and describe translations, reflections, rotations, enlargements, shears and stretches | 37 |  | p.p. |  |
| Describe transformations using coordinates and matrices | 37 |  | 297-299- |  |
| Perform transformations from given matrices | 37 |  | 292-297 |  |

## Vocabulary:
